

THINGS

The Team at Polytech Plastics guarantee !!! They will...

➔ **Respond with quotes within 4 working hours.**

Whether you Email, Fax, Phone in or call us, will have an answer back within this time. In many instances, we will be able to give an immediate quotation due to our accumulated knowledge of what is available and costings. If we cannot meet this deadline we will contact you regularly and keep you informed of the status of the quote.

➔ **Complete all Cut-to-size and CNC machining work within 48 hours.**

We have a large range and stockholding of a wide variety of plastics and full CNC and other equipment in-house to be able to fulfill your needs. We will advise you within 1 hour of your order being complete or put it on the next available delivery at your request.

➔ **Complete all fabrication orders within 7 working days.**

Our team members have a wide variety of skills – all in-house - so that we can monitor and control the progress of your order.

➔ **Quality Control your order so that you get the right item first time.**

We have a professional system, whereby your order is checked at the various stages of production and is given a thorough Final Inspection to ensure your order is RIGHT.

➔ **Ensure you get the right product to satisfy your needs.**

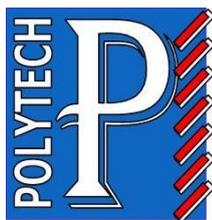

The range of PLASTICS & RUBBER is so large that no one person can answer all there is to know. However, we have built up a whole encyclopedia on all Plastics and how they work for you.

➔ **Ask questions to clarify your needs.**

We have the practical knowledge that comes from many years experience. We will ensure that what you are planning is feasible with the product you are asking for.

➔ **Will source your requests for any Plastic & Rubber items.**

Due to our long experience in Plastics we have built up a vast network of Suppliers globally and can source all your needs at the RIGHT price and efficiently in time.
